# EDAN

Smart ECG Viewer
Data Management Software

EDAN Smart ECG Viewer is a PC-based software, which enables you to review, edit, record and export ECGs. It provides paperless workflow and intuitive interface to improve your work efficiency. This software is compatible with Windows XP, Windows 7 (32/64-bit), and Vista (32/64-bit) operating systems.

Transmitting via LAN/Wi-Fi

Smart ECG Viewer

- Multi-format ECGs can be sent via E-mail.
- Support GDT / DICOM Worklist.

Bi-directional Communication

Patient Information

Streamlined Workflow

ECG Reports

Import patient information directly into standalone ECGs to ensure accurate data entry, then transmit the finished ECG reports back to Smart ECG Viewer for data review, edit and storage.

Workflow

Intuitive interface to improve your work efficiency

Measurements   Diagnosis   Report
