## Dialysis chair PURA

The attractive design of PURA creates a feeling of wellbeing for the patient.

This unique product design sets high standards and increases the prestige of a dialysis centre.

Designed to take up the minimum amount of floor space to maximize treatment areas.

Unique design combined with a high degree of comfort.

Wide ergonomically adjustable armrest increases the patient's comfort and independence. Armrest could be controlled by client which makes the work of hospital staff easier.

Removable armrests for transporting the chair through narrow areas.

Unique foot support contributes to the patients comfort and allows the patient to change position with the minimal amount of effort.

Compact seamless areas speed up cleaning and enable disinfection with no compromise.

Unambiguous and easy control without time consuming training.

The hand control keyboard can be locked using magnetic key.
